

Cut Down on Water Waste

The average American family uses **300 gallons of water each day**, but a lot goes to waste. Learn what you can do at home to reduce the amount of water wasted!

1

Be shower smart

Water-smart shower heads use 20% less water. Plus, save 40 bathtubs of water a year when you reduce your shower by 3 minutes.

2

Use your dishwasher

Dishwashers use half as much energy and a third less water than hand washing.

3

Fix household leaks

One drip every two seconds amounts to more than 1,000 gallons of water a year.

Toilets

Hoses

Water Meters

4

Turn off water when brushing

Save up to 8 gallons of water a day when you turn off the faucet while brushing your teeth.
